The St. L. Stave & Lumber Company contemplate moving their factory from Arcadia to Bismarck in the near future.

The barn recently completed by Mr. Clarence N. Jones in Russellville is probably the finest structure of its kind in all Southeast Missouri. It is superb in every respect.

As the REGISTER has frequently stated during the past year the foot-bridge across the branch between Ironton and Russellville is in a most dangerous and dilapidated condition.

With favorable weather the telephone line will be completed to Bismarck in a couple of weeks. The Ironton station will be located in the Blue Store, across from the REGISTER office.

About twenty-five men and a dozen teams are at work cutting down the grade north and south of the railroad bridge. As soon as the work is completed the new iron bridge will be put in position.

Chas. Newman left Monday for Springfield, Mo., whence he starts on a trip for the Gunning Sign Company of Chicago. Charlie thoroughly understands his business and we wish for him every success.

The telephone camp has been moved to Iron Mountain. The poles are up and the wires stretched through the Valley. In a very short time we'll have telephonic communications with all the world—or nearly.

E. Bispinghoff, the general merchant at Bellevue, has concluded to retire from business, and intends disposing of his entire stock of goods at cost. This is a bona fide closing out sale and everything will be sold at cost.

Robert E. Craig, a pioneer printer of St. Louis, died at the national printers' home at Colorado Springs, Colo., on January 7. For a period of eight years after the Civil war, Mr. Craig was register of the land office at Ironton, the position now held by Rev. Geo. Steel.—De Soto Press.

Born—To Mr. and C. G. Whitworth, Monday, January 21, 1900, a 11 lb. girl. The REGISTER tenders its congratulations, and is pleased to announce that mother and child are doing nicely.

M.

M. J. Crews, who has charge of the hotel out at Huntington, made the News a pleasant call this week in the course of which he told us of many improvements that are being made at that place. The St. Joseph Lead Co. are now erecting about 20 houses besides various other marks of enterprise. Verily, it begins to look as though the whole valley is destined to be one town—and that town broader than it is long.—Flat River News.

Speaking of La Grippe, an eminent physician of the Valley suggests that it spreads either rapidly to be communicated by either germ or gas. He believes it is caused by a negative electrical state of the surface of the earth, or deficiency of electricity. The physical man, by abstraction, partakes of this deficiency, and is less able to resist debilitating influences. The disease may be avoided by charging the system with electricity and insulating it, using rubber shoes and boots, insulating chairs, bedsteads, etc., to prevent the electricity from passing from the body. These use nerve tonics with mild stimulants, artificial heat, and proper nourishment.

The K. P. boys are soliciting subscriptions from the citizens to entertain the Southeast Missouri celebration at this place next June. If the celebration is held here it will bring at least one thousand visitors to the Valley.

Mrs. Fred Kiedell entertained the Willing Workers of the Presbyterian church last Thursday afternoon, and the session proved one of the most interesting and profitable in the history of the organization. After the work of the day had been completed, the hostess treated her guests to a very agreeable surprise, and invited them to partake of a most elegant lunch.

The Rev. T. A. Waterman arrived in town Saturday and is pleasantly located at the Commercial Hotel. He officiated Sunday, the morning sermon from Ps. xc., 9, containing an affecting allusion to the close to entering upon his new charge. Friday being the feast of the conversion of St. Paul, the patron saint of the church, there will be evening prayer with an address. Services also Sunday, the subject in the evening being "the best way to make and keep friends."

Alfred Pryor, aged about thirty, and Letha Watkins, fourteen, both of Pilot Knob, went to St. Francois county Sunday night, and returned home the following afternoon, stating they had been married. The parents of the bride did not know of her absence until Monday morning, as they supposed she was spending the night with a neighbor. On learning the facts the girl's father was considerably excited and promised to do something desperate. On the return of the couple, however, and their assurance that they had been legally wedded, the usual parental forgiveness followed.

In sinking a well on the public school property at Belgrade, this county, some time since, disseminated lead ore was struck at a depth of 40 feet. Samples of the rock were sent to New York City where they were assayed by specialists and proved to contain 6 per cent. lead. Mr. J. H. Crooks, of Potosi, has secured options on about two thousand acres of land, in and around Belgrade, and has succeeded in getting some New York capitalists interested who are expected to visit the property the first of next week. There is no doubt but what there is a large body of disseminated lead ore in this county and we hope to hear of a big boom in Belgrade Township real soon.—Potosi Independent.

Arch Casteel was on trial before a jury in Judge Fox's court (special term) Monday. Casteel, who is about 20 years of age, was indicted at the March term of 1899, on the charge of having burglarized the store of Acklin Breuninger, on Leatherwood creek, on December 24, 1898, and stolen three bottles of biters worth \$1.20. The only contention was whether the door through which the defendant entered was locked or unlocked. Prosecuting Attorney Holladay made the opening and closing addresses for the State. Attorney David M. Tesreau (appointed by the Court) conducted the defense. Speaking through the defense, he admitted the petty larceny but denying the burglary. The jury, which was out about half an hour, returned a verdict convicting the defendant of petty larceny and assessing his penalty at twenty days in the county jail. Defendant's mother sat by his side within the bar of the court room.—Fredericktown Tribune.

The C. E. Society of the Presbyterian Church will give a "Special S. The bereaved family have our heartfelt sympathy in their sad bereavement.

Little Nora sleeps—the little face Against the snowy pillow pressed, The waxen hands with childish grace Lie folded on the pulseless breast.

Little Nora sleeps—a sunbeam falls Softly through the darkened room, In golden ripples on the walls, A radiant light amid the gloom.

Little Nora sleeps, life's conflict o'er In ten short years the victory won Through Him who all life's sorrow bore, And the immortal life begun.

Little Nora sleeps—beyond the tomb Where streams of living water flow And brightest flowers ever bloom Beneath the sun's eternal glow.

She was the eldest child of Mr. and Mrs. Geo. B. Cole and was born and reared on their farm near Quaker, Washington county, Mo.

Born, April 1st, 1863, she was 37 years, 9 months and 5 days old at the time of her death. Her remains were buried in the graveyard at Emmaus Church.

She was a faithful and affectionate wife and a kind and loving mother. Her grief-stricken husband and five sons—the youngest an infant—and numerous other relatives survive her.

Poor wife, she is dead and I am alone, 'Tis the debt which we all have to pay, Yet of all sorrow mine is the life I never knew grief till to-day.

Full sixteen years we walked side by side, Each a staff to the other always; But the angel of death has taken my help, So what can I do but pray.

Bless Thou us, Lord, in the Kingdom above, Whence Thy grace so freely is given; So long have we journeyed together on Earth, Receive us together in Heaven.

Mrs. Mitchell was fast declining in health, when Wine of Cardui performed a "wonderful cure" in her case. She suffered with the agonies of falling of the womb, leucorrhoea and profuse menstruation. The weekly appearance of the menses for two months sapped her vitality until she was a physical wreck. Her nervous system gave way. Then came the trial of Wine of Cardui and the cure.
